OTTAWA, Aug. 20.

The printing bureau scandal was investigated in the public accounts committee yesterday. Bronskill, superintendent of the stationery branch stated that six million envelopes were purchased from the Barber & Ellis Co., Toronto, without tender for \$70,000. Bronskill admitted getting several payments in cash from the firm. He also got a commission on purchases from McFarlane, Austin & Co., Montreal. J. T. Johnson, type founder, Toronto, stated that he sold \$10,000 worth of plant to Senecal for printing bureau and subsequently gave Senecal \$1,000. Senecal, superintendent of the printing bureau, said he purchased from Miller & Richard, Toronto, \$60,000 worth of plant, and admitted getting cash payments from their agent, Patterson, but could not remember the amounts. He also admitted getting payments from the Johnston, Toronto type foundry and the Polson iron works, but denied getting anything from the Dominion type foundry of Montreal. Senecal has been suspended. Bronskill has been dismissed.

W. JOHNSTONE WALKER returned from a visit of pleasure to the Pacific coast and of business to Montreal on Monday's train. Mr. Walker was delighted with the scenery of the mountains and the beauties of the coast and particularly with the coast cities. Although times were said to be dull and real estate flat, there was still a great mass of people, and lots of business doing. Crops were looking well in Manitoba and grain cutting was in progress near Brandon. Great expectations were indulged in as to the outcome of the season's crop. In Calgary Mr. Walker found the people more favorably impressed regarding Edmonton than ever before, greatly the result of the excursion of the 10th.

THE EDMONTON BULLETIN is published every Saturday morning, at the office, Main street, Edmonton. Subscription—Two Dollars per annum. FRANK OLIVER, proprietor.

EDMONTON BULLETIN, AUG. 22, 1901.

The action of the directors of the Edmonton agricultural society at their recent meeting in deciding to take part in the Winnipeg exhibition is worthy of all commendation, and the active assistance of every member of the community interested in the progress of this district. The Winnipeg exhibition is in strong hands with plenty of backing and run by energetic men. It cannot fail to be a success, in that it will attract exhibitors from all parts of Manitoba and the Northwest and not less in that eastern people will make the trip to Winnipeg for the purpose of seeing the various sections of this vast central Canada in full and fair competition. In such a case it is in the highest degree to the interest of Edmonton that it should make the best possible showing for itself. The northern and more distant agricultural region in the Northwest, general prejudice is naturally against it, and this prejudice receives strong encouragement from all rural districts. At the same time this is the best stock raising, the best dairying, the best fruit growing district in the Northwest. It has the richest soil, the best timber, the most luxuriant vegetation, and the best, most healthy and most pleasant climate in Central Canada. The opportunity to prove this superiority in nearly all these particulars, to overcome all prejudice, and to turn the current of eastern immigration permanently in this direction is offered by the Winnipeg exhibition.

The meeting on Thursday night seemed to be unanimously in favor of incorporation on the amended limits proposed. There was no desire to trespass unduly on private rights but there was a general feeling that the time had arrived in the history of the place when self protection demanded that all parties should make common cause. It would be a poor world if every one thought alike, and it cannot be expected that every citizen of Edmonton will approve of the step which is proposed to be taken, but it is to be hoped that those who favor incorporation will continue to handle the matter in as fair and moderate a spirit as hitherto and that those against it will not take for granted that only bad examples will be followed if incorporation becomes a fact. Everyone admits that with the growth of any town municipal government becomes an absolute necessity. But circumstances are such that if proper steps are not taken in good time our growth will be seriously retarded. It is therefore for us now that we know exactly how we stand, to put ourselves in shape to overcome as far as possible the difficulties, whether great or small, of our present situation. Incorporation is only a means, not an end. The end is simply the protection of our own interests.

That sterling old anti-joint anti-separate school agitator Col. O'Brien, M. P. has followed the illustrious example of the great McCarthy, when the time came for him to put his principles into practice, and crawled under the barn. The gallant colonel permits the Northwest act to go into force without moving against separate schools—but he will do so next session, if next session ever comes for him, when his motion may be harmless and certainly will be useless. It has now become perfectly clear that all the anti-joint outcry made by McCarthy and his following was instigated solely and only for the purpose of driving McLean from power in Ontario. When they find the gun loaded up the other way, as in the present case, they drop it just too quick. A more atrocious example of pure jealousy, as the word is generally understood, than the action of McCarthy and O'Brien in this connection never occurred.

SUP. WHITE of the C. P. R. Winnipeg, assistant C. P. R. superintendent J. Niblock of Medicine Hat, H. D. Lundeen, C. P. R. engineer, Wm. Mackenzie, of the construction company, A. M. Nanton, of the C. & E. railway company, C. S. Lott, land agent of the railway company, C. J. Drayton, superintendent of timber supply, Mr. Neilson of the construction company's mills at Beaver, Dr. Lynch of Winnipeg and J. H. Munson of McLeod's Allen, barbers, Winnipeg, arrived on Monday's train in a private car. They drove around the country on Tuesday afternoon. The view of the railroad near was in connection with the handing over of the railway to the C. P. R. which, as far as learned,

has not yet taken place. Mr. Nanton's visit was in connection with putting the South Side town site on the market. All the party except Mr. Lott went south on Wednesday's train.

AGRICULTURAL SOCIETY.

A MEETING of the directors of the Edmonton agricultural society was held in the public school house on Saturday at 2 p. m. Present: M. McCauley, president, G. S. Long, W. Walker, R. Kelly, J. C. C. Bremner, D. B. Wilson and W. H. Stephens. A letter was read from L. A. Hamilton, land commissioner of the C. P. Railway in which notice was given of a prize of \$100 having been offered by his company for an exhibit of not less than six varieties of grain threshed and in the straw, to be exhibited by an agricultural society, the competition to be open to all the provinces and territories. It was decided that the Edmonton agricultural society enter for this competition and that samples be secured with that end in view and that should the society win the prize the money would be divided among the farmers whose grain had been chosen to form the exhibit. The programme for the fall show was prepared and it was decided to hold the show on Friday, October 9th.

INCORPORATION.

The meeting called to further consider the question of incorporation was held in Ross' hall on Thursday evening. J. A. McDougall chairman, C. F. Strang secretary.

J. Knowles moved, seconded by M. McCauley, that the proposed boundaries as advertised in the BULLKIN of August 8th be amended to include a portion of river lots 18 and 20, by extending the line by which it was intended to take the front part of river lot 16 into the incorporation eastwardly on a straight line until it touched the river. The motion was carried. This includes a portion of W. Rowland's claim, a portion of K. Macdonald's claim, Fraser & Co.'s mill, Humbertstone's brick yard and the lower ferry landing within the limits.

It was moved by C. F. Strang, seconded by D. Ross and carried that J. Cameron, J. A. McDougall, E. Carey, H. S. Young, F. Oliver, J. Knowles, M. McCauley and Chas. L. Shaw, be a committee to take such further steps as were necessary to secure incorporation. The meeting then adjourned.

THE NORTH-WEST BILL.

The Northwest bill was read a second time on August 15th and put through committee. Davin gave notice that later on he would move for the insertion of a provision that the persons qualified to vote "shall be male, British subjects by birth or naturalization other than unfranchised Indians or members of the Northwest mounted police." Col. O'Brien said he would not during the present session move for the insertion of a clause providing that the people of the Northwest should have complete control of their educational system, but would at a future session. Latviere said he would never consent to leave the school matter in the hands of the local legislature. Macdowell thought the bill would be acceptable as a temporary measure. Col. Amyot spoke against giving the people of the Northwest full control in educational matters. Dr. Sproule agreed with Col. O'Brien. Mr. Davis of Alberta said he was satisfied that this bill will give very general satisfaction in the Northwest Territories and to the question raised by the member for Muskoka (Col. O'Brien) he thought it received very little attention in the Northwest. He would not favor the abolition of separate schools because there had from the first been Roman Catholic schools in the Northwest and he would not be a party to interfering with them because the majority at the present time was Protestant. While supporting the bill he asked for larger representation than proposed for his district. The bill stood for the consideration of Davin's amendment and another to increase the representation to 25.
